

Harmonic Connections PLUS LEGACY INSTITUTE

"An educated individual is an empowered individual."

Harmonic Connections PLUS Apprenticeship Development

HC+ Apprenticeship Development is an introduction to the fundamentals of basic residential construction maintenance, safety, tools, and materials. This practical, hands-on program is not only designed to equip students with an awareness of basic home maintenance skills and safety, but also encourages leadership, confidence, and teamwork as a way to understand the importance of working well with others.

Pilot Project

Traditionally students are prepared for professional careers with a focus on efficiency through increased technical skills and problem solving techniques for self-promotion. The Pilot Project is made up of six 1½ hour sessions that culminates with an award presentation upon successful completion. Whatever career interest your student has, HC+ Apprenticeship Development is designed to engage each student on the importance of leadership and teamwork as it relates to sustainable development. To sign up and reserve a spot, visit www.HarmonicConnections.org

Objective

The aim of this course is to introduce students to the basic systems of residential construction, safety and methods in minor home maintenance and repair. The aim of Apprenticeship Development is to expand this perspective by introducing the **3H Advantage** - *head, heart, hands* – as a way to encourage students to celebrate differences, as they navigate their work environments to working well with others in their chosen careers.

Dates for AD Project: _____

Date for AP Award Presentation: _____
